

HECRTF

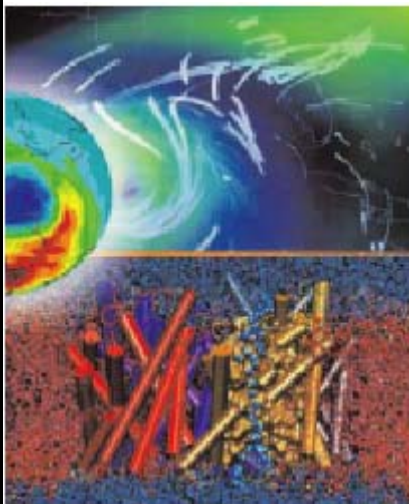

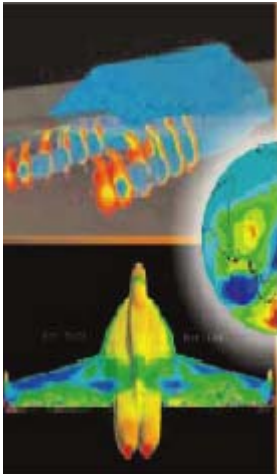

High End Computing Revitalization Task Force Implementing the Plan

Tuesday, November 9, 12:15PM - 1:15PM Eastern Time
RM#: 306/307

Moderator: Dave Nelson (NCO/ITRD)

In May 2004, the High-End Computing Revitalization Task Force (HECRTF) published its report, "Federal Plan for High-End Computing." This BOF will discuss the vision of how the plan will be implemented. Implementation plans will be presented by Federal agencies. There will also be presentations on pilot projects discussed in the report that are already underway.

The agenda and list of participants are on the back.
